PROFESSIONAL SUMMARY

Software Engineer and Applied Computer Science student at Chuka University, leading technical architecture and delivery as CTO & Co-Founder of NuruHuru, a fintech platform for East African investors, and as a Software Engineer at STEAMLabs Africa, an EdTech NGO. Builds clean, reliable full-stack systems end-to-end — from architecture through production deployment — and pairs technical leadership with a background in business and financial analysis.

EXPERIENCE

Chief Technology Officer (CTO) & Co-Founder

2026 – Present

NuruHuru — Nairobi, Kenya

- Co-founded and lead engineering for a fintech platform that aggregates and ranks investment products — money market funds, SACCOs, bonds, and crypto — for East African investors.
- Own the technical roadmap and full-stack architecture: Next.js, FastAPI, and PostgreSQL, self-hosted on a Contabo VPS with Nginx, Certbot, and GitHub Actions CI/CD.
- Set clean-code standards and modular design practices, and drive full-stack delivery from concept to production.
- Support company governance alongside co-founder strategy and planning sessions.

Software Engineer

May 2026 – Present

STEAMLabs Africa (EdTech NGO) — Nairobi, Kenya

- Lead research, architecture, and planning for a custom Learning Management System serving learners and educators across Africa.
- Recommended a NestJS modular monolith, an offline-first React PWA, and a self-hosted Judge0 code-execution service; authored the product requirements document and build plan.
- Prioritized differentiating features, including CBC/CBE competency alignment, mastery-gated progression, and an AI Socratic code tutor.
- Convert product designs into production React components and support code reviews to maintain quality and uptime.

Frontend & IT Consultant

May 2025 – Present

Jossie Construction Limited — Nairobi, Kenya

- Advise on frontend architecture, responsive design, and site performance using React.js and Tailwind CSS.
- Guide corporate IT infrastructure and digital tooling decisions to minimize operational disruption.
- Maintain and improve the corporate web platform to support client engagement and commercial credibility.

Deal Sourcing & Asset Management Analyst

Jul 2024 – Sep 2024

Colton Alexander — Colorado, USA (Remote)

- Researched technology startups and enterprise businesses against the firm's investment criteria.
- Conducted deep-dive evaluations of business, financial, and marketing models.
- Assessed commercial viability and growth potential to inform investment decisions.

IT Technician & Systems Assistant

Feb 2023 – Jul 2023

Xtrill Entertainment and Cybercafe

- Maintained hardware reliability, network uptime, and workstation security for customers.
- Provided technical support, troubleshooting software and connectivity issues.
- Set up and managed customer accounts, including time tracking and billing.

TECHNICAL SKILLS

Frontend: HTML5/CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS

Backend: Node.js/Express, NestJS, FastAPI, Python

Data & Infrastructure: PostgreSQL, Prisma, MongoDB, SQL, Nginx, Contabo VPS, GitHub Actions CI/CD

Practices: Clean code & modular architecture, RESTful API design, Git/GitHub, code reviews, debugging & diagnostics

EDUCATION

Chuka University

B.Sc. in Applied Computer Science

Sep 2023 – Expected Nov 2027

Kihara Secondary School, Kenya

Kenya Certificate of Secondary Education (KCSE)

2019 – 2022

CERTIFICATIONS

- Responsive Web Design — freeCodeCamp
- JavaScript Algorithms and Data Structures — freeCodeCamp

SELECTED PROJECTS

- KilimoAI — AgriTech AI platform tackling price uncertainty and market opacity for smallholder farmers.
- Agroconnect — Direct-to-market digital exchange connecting agricultural producers with buyers.
- St. Paul Catholic Church Kibingoti — Community web portal for parish communication and engagement.
- Portfolio Website — Built with vanilla HTML/CSS/JavaScript and live GitHub REST API integration.

LEADERSHIP & COMMUNITY

- Rotaract Club of Chuka University — Active Rotaractor; organizes community outreach and youth-mentorship programs, and represents the club in regional service projects.
- Civic Volunteering — Environmental conservation drives, charity food distribution, and coding mentorship for students.
- Open Source & Developer Community — Contributes to open-source projects on GitHub; mentors peers in full-stack development and clean coding practices.
